WATER FOG2000

2000 W water-based ultrasonic fog machine

Professional water-based fog machine. It exploits the ultrasonic technology to obtain an enormous quantity of low lying smoke without using ice or cooling the smoke.

You just have to pour into the tank some water, which thanks to the ultrasound sensors, will be mixed to the smoke produced by the powerful 200W smoke machine on the back side.

It is possible to connect a water pipe to supply continuously water.

It operates thanks to a remote control, but it can be also connected to a DMX system. A practical display allows to control each function including the output power, the timer, the DMX address etc...

It is suitable for use on stages or other locations of 200/250mq and it also includes a practical flight case for easy carriage.

absorption	2000W
Smoke volume	350m2/min
Timer	Yes, through display
preheating time	4 min
Remote control	Included
Max power	2000W
Output connectors	XLR
Input connectors	XLR
Tank capacity	10 lt
Wireless controller	Yes
Color	black
Weight	35
Product dimensions	590 x 360 x 520 mm
Power supply	110V - 220V
Notes	Flightcase included
