

Broadcasting Microphone with indicator

Characteristics:

- *Using high sensitivity, wide frequency range electret condenser element.
- *Led indicating light when the microphone is on "USE".
- *Gooseneck with stiffener can be easily adjusted to a better sound pick-up angle.
- *Easy to assemble and detach.
- *An anti-slipping rubber mattress under base to have a more steadily positioned on surface.

Note:

- *Can be used continuously for a long time. If this device will not be used for some time, please remember to take the battery out.
- *The base stand is designed to apply yoga microphones only.

Specification:

Frequency Response:.....100 – 16KHz

Sensitivity:.....-68dB ± 3dB(0dB=1V μ bar,1KHz)

Output Impedance:.....1K ± 30%

Type:.....Uni – directional

Power Supply:.....DC 3V(um-3 × 2,Not Include)
