Small but performant, this light effect can operate on a wide range of about 150Å°.

It produces a hundreds of laser beams, thanks to its red (60mW/650nm) and green diodes (20mw/532nm). A switch on the back allows to turn it off, or activate it in auto or sound activated mode. It includes a small motor putting in motion hundreds of rays and producing an effect called firefly. Thanks to the infrared remote control included in the packaging it is possible to operate from a distance. It is also endowed with a bracket for wall or ceiling mounting or to place it on any surface and adjust it as you wish. It is also powered by a small external adaptor (included). Very small consumption.

Laser color	red + green
Display	No
Laser's power	80 mW
Mounting bracket	Yes
Cooling fan	1 fan
Laser angle range	150Å°
Operating mode	Automatic + sound activation
Red laser power	60mW/650nm
Green laser power	20mW/532nm
Remote control	Included
Pc connection	No
Kind of fixture	laser
PC interface	None
Laser Class	Class 3R
Color	blue
Weight	0,5
Product dimensions	109 x 96 x 53 mm
Power supply	110V - 220V
