1mt strip with 16 RGB leds RGB (type 5050), designed for installation on the back of TV screens. Its light will make the view more comfortable, avoiding strain for your eyes. It is powered by a common USB socket (usually present behind any TV). Three keys allow you to turn it on, turn it off, select the color or apply one of the many effects such as fade, strobe etc. When turned off its circuit keeps memory of latest settings. It can be applied everywhere through its practical double-side tape and can be shortened in a few seconds, just by cutting it where on the specific lines. The packaging includes 2 joints to be used in case of connection to a further strip of the same model.

Input connectors	USB 2.0
Color	black
Weight	0,02
Product dimensions	1000 x 10 x 3 mm
Power supply	Through USB
