100V - 20W ceiling speaker

Two-way ceiling speaker with a particular back cover, protecting it from dust or foreign bodies and offering an excellent sound amplification, thanks to the resonance effect. The internal transformer allows to use it in 100V systems and power can be set on 10W or 20W. It is endowed with spring terminals for fast connection of the wires. It mounts a 5" woofer and a 1" tweeter.
