It is composed of 2 amplified speakers with separate volume control and a transmitting unit with radio, Mp3, bluetooth and microphone socket. Just connect the speakers to a common electrical outlet to receive the signal from the transmitter without property and also suitable.

The speakers are completely waterproof and also suitable for outdoor placement. They can be hung on the wall either directly or using an adjustable bracket supplied. Their maximum power is 50W each.

The transmitter allows you to adjust the volume of all speakers (including any purchased later) by separately managing the volume of the microphone and the high and low tones. It has the classic keys for playing MP3 songs read from USB sticks with automatic repeat function. There is also an external signal socket.

A practical remote control completes the kit.

Suitable for installation in restaurants, pubs, swimming pools, gardens ... anywhere. A practical and expandable system.

Pyranungi	IP 65
RMS power	25W
Woofer dimension	5" (12,5cm)
