240W speaker with dual wireless microphone

Professional powered speaker with dual UHF microphone and remote control. The built-in battery can be recharged from a domestic power outlet or at 12V. It is possible to connect to the panel a wired microphone or a music instrument, via combo XLR - 6,3mm connectors. It also comes with RCA sockets for input and output of line signals.

The echo effect with reverb adjustment can be applied to the microphones and the master signal can be equalized at will. The multimedia module features bluetooth function, FM radio, MP3 player via USB and a large display showing main information and the battery charge level.
