Bluetooth 5.4 earbuds with display

Latest generation bluetooth earphones operating with the 5.4 standard and offering excellent performances thanks to the high audio quality, the low latency and an extraordinary autonomy. The speakers with silicone tips, are perfectly isolated and enhance the bass tones.

With their "touch control" it is possible to change track, pause the music and answer incoming calls just with a light touch. The display shows many functions and allows for example to take a picture from your smartphone, activate the noise reduction start a countdown and much, much more! Once put into the case the earphones will be recharged to be always ready for use.
